

# Is your insurance company holding your dealership captive?

**Then think about a captive insurance company.**

**BY GREG REDDOCK**

Many dealerships already utilize Captives for F&I products. Why not consider a captive for Garage Liability, Workers Compensation and Health Insurance?

*Over 90% of Fortune 500 companies are insured through a Captive because they allow you to take control of your insurance costs.*

**30-40%**

**Managing your risks and reducing losses translates into immediate cost savings, often over 30%.**

**10-20%**

**Buy coverage from the more stable reinsurance marketplace and mitigate market driven premium increases of 10-20% annually.**

**Other than payroll, insurance is the largest expense of a dealership.**

A handful of insurers have exited the dealership market in the past 3 years. More are considering it. Without a competitive market, prices remain artificially high. Take control of your own destiny with your own captive insurance company.
